

Welcome to SAS Online!

We are an online discount brokerage firm offering brokerage services for stocks, future and options, currency and commodity on NSE, BSE and MCX. As a venture started “by traders for traders”, we at SAS Online truly make your money count.

Now you can trade at just Rs. 9 per executed order or avail of our unlimited monthly plan for just Rs. 999! We have no account minimums or hidden costs, which translates into lower costs and hassle free trading for you. You can even reduce your brokerage further and earn more by referring a friend.

Brokerage Plans

Flat ₹9 per trade

Regardless of the trade size now pay a flat fee of “Rs 9 per executed order” / 0.01% (whichever is lower), whenever you trade in NSE Cash, BSE Cash, NSE F&O and MCX Commodity. For Delivery based transactions SAS charges you 0.1 % or Rs. 9 per executed order, whichever is lower. You can now trade currency at flat Rs. 9 or Rs. 0.99 per lot whichever is lower.

For Example: You place a ‘buy’ order for 1000 shares of Reliance. This order may get executed in different trades until the whole 1000 are bought. However, we at SAS Online charge you only for the order that you placed, irrespective of how many trades it takes to complete the order. The same charges apply for trading intraday/delivery or Futures & Options.

Trading Platform

We bring to you NEST Trader - State of the art online trading platform so you can make the most of the opportunities in today's market. NEST Trader is one of the fastest, reliable and user-friendly platforms available in the country today. Servers are co-located inside NSE thus ensuring tick by tick rate updates and quick order routing.

NEST Trader comes in downloadable, HTML5 WEB as well as MOBILE versions.

Funds Transfer

Funds can be transferred through payment gateway, net banking, NEFT, RTGS and Cheque. Details of our bank account are available on the website for the purpose. Funds must be transferred through your bank accounts registered with us.

A payout can be requested through back office. All payout requests will be processed by the end of that trading day.

Margin Against Shares

Get margin against shares and unlock the potential of your portfolio.

To avail margin against shares you would need to pledge shares in SAS Margin Account. As soon as shares are pledged, you will get margin against those shares after the exchange prescribed haircut

Online Back Office

The Back Office system allows you to view your trading activity since you joined SAS. At the end of each day, your trading activity is uploaded to your account for your perusal. Use this data to understand your historical trading activity, file tax returns, and other accounting purposes.
